EXAMINER'S ACTION

PTOL-326 (Rev. 7 - 82)

Serial No. 769746 Art Unit 128

Claims 1, 8, 9 and 19 are rejected under 35 U.S.C. 112, first and second paragraphs, as the claimed invention is not described in such full, clear, concise and exact terms as to enable any person skilled in the art to make and use the same, and/or for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following reasons apply:

- 1. In claim 1, line 7, applicants have left in the words "A is", so that the claim will read", A is $\underline{\lambda}$ is...". (paragraph 2)
- 2. In claim 1, line 5 of page 2, the phrase "bearing no or a further lower alkyl substituent" is awkward language. Also the claim is indefinite because no counterion for the thiazolio moiety is give. The examiner suggests the following wording: " or a 3-loweralkylthiazolio group, optionally substituted with one lower alkyl group, with a halide counterion,". (paragraph 2)
- 3. Claim 19 is indefinite because a) in line 2, the substituted vinyl group should be in the 3 position not the 2 position and b) in line 3, "syn" is misspelled. (paragraph 2).
- Claim 9, in line 6, still says "and its trifluoroacetate" and thus is indefinite because it is not known if this means the salt or ester. (paragraph 2)

Serial No. 769746 Art Unit 128

The declaration under 37 CFR 1.132 filed October 12, 1986 is insufficient to overcome the rejection of claims 1-4, 6-13, 15, 16, 18 and 19 based upon Farge as set forth in the last Office action because the declaration is not probative, in that applicants have not compared against the closest compounds of Farge, those of examples 2, 40 and 49.

The declaration under 37 CPR 1.132 filed October 12, 1986 is insufficient to overcome the rejection of claims 1, 2, 3, 8, 9, 10 and 18 based upon Beattie in view of Berger, Farge, Furlenmeir and further in view of Dunn as set forth in the last Office action because applicants have not compared against Beattie's compounds of examples 6,7 and 16.

The declaration under 37 CFR 1.132 filed October 12, 1986 is sufficient to overcome the rejection of claims 4, 11-16 and 19 based upon Beattle in view of Berger. Farge. Purlenmeir and further in view of Dunn.

Claims 5 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new grounds of rejection. Accordingly, TBIS ACTION IS MADE FINAL. See MPEP 706.07(a).

Applicant is reminded of the extension of time policy set forth in 37 CPR l.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMGG 35.
